I am a highly passionate individual who thrives upon seeking new challenges through my career as a Data Analyst. Seeking opportunities where I can utilize my analytical, mathematical, and technical skills to solve real-life problems related to analyzing a big volume of datasets to draw insights that can help with business decisions

## Skills

- Programming : SQL, Python, Excel VBA Macros, HTML
- Visualization : Tableau, Power BI, MATLAB, Jupyter, Looker Studio
- Libraries : Panda & NumPy
- Database : MySQL
- Tools : ETL, Google Sheet, Salesforce, JIRA
- Soft Skills : Excellent communication skills, presentation skills, and storytelling abilities

## Experience

### Metrics and Reporting Senior Associate

June 2022 to Present

Organization:  Operation Centre

- Interpret data, analyze results under the required ETL and Quality checks related work.
- A working knowledge of Linux command-line environments.
- Expertise in prioritizing and escalating bugs and support tickets
- A thorough understanding of the design and use of relational databases
- Perform complex SQL queries utilizing database functions, stored procedures, and nested loops
- Applied rigorous data quality checks to maintain data accuracy, completeness, and consistency.
- Upload Bulk data files to the Salesforce instance and handle heavy data sheets/excel files.
- Filter and "clean" data by reviewing sql based queries and correct code problems.
- Work with stakeholders to check for work prioritization and share regular status updates.
- Collaborate with other teams to work together on critical projects to be delivered in time.
- Locate and define new process improvement opportunities and bring innovation as appropriate.

### Analyst

Organization: 

Oct 2019 to May 2022

- Analyze complex requirements and define technical/Functional advanced solutions.
- Created test cases (test scripts) using an Automation testing tool (Prueba).
- Hands-on experience in SQL and Advanced Excel.
- Worked on the thunderhead tool to create customer engagement applications that deliver Personalized, contextual, multi-Channel communication
- Analyzed the requirement, testing Strategy design, test plan preparation, test execution, and tracking defects.
- Proficient in data manipulation using SQL for the retrieval of data from the relational database.
- Documented, Troubleshoot, and followed up on the issues found during testing.
- Created Automation template test cases for verification.
- Built data visualization to generate meaningful insights from customer data.
- Converted data into actionable insights by predicting future outcomes.
- Develop dashboards to inform business decisions with an emphasis on automation and scalability.

## Certification / Recognition

- Dual participation certificate by NASSCOM Future Skills & Jigsaw in full-stack DataScience • Certification in MATLAB.
- Awarded Dazzle Award for Automation testing.
- Certification in Automation Intelligence & IoT from IIT Kanpur.
- Certification in HWS Benefit Domain and System Fundamentals.
- Rewarded Illuminate award of the year for the best unit employee.
- Certification in CNS (Communication, Navigation & Surveillance) from Civil Aviation Training Centre.

## Education

Bachelor of Technology (ECE) -UCER  
Intermediate - Kendriya Vidyalaya  
High School - Kendriya Vidyalaya

Aug 2015 – June 2019  
May 2013 – May 2014  
May 2011 -May 2012
